

Dear Brother Governor:

Congratulations on your recent election and installation as the Governor of your Lodge. I want to wish for your Lodge growth and success under your leadership and guidance during your year as the Lodge Governor.

The purpose of this letter is to remind you that as the Governor of your Lodge, it is your responsibility to appoint all required committee chairmen for your new year. One of these required committees is the Moose Youth Awareness Program (Community Service Committee). With this letter I am requesting the name and additional information of the Lodge Brother that you have selected as the Lodge coordinator of the Moose Youth Awareness Program. Please keep in mind that the Moose Youth Awareness Program is one of the alternate required criteria for the Premier Lodge Award, however, it is required if you wish for your Lodge to receive the Platinum Award which is the top award.

In order for me to keep you, the Lodge Administrator, and your Moose Youth Awareness Coordinator informed on the program agenda, dates, times, and any possible changes to the up coming Student Congresses, please complete the attached form that requests the name, address, telephone numbers, and e-mail address of you, your Lodge Coordinator, and your Lodge Administrator. Please after completion promptly return this form to me as soon as possible, NO LATER THAN SUNDAY, JUNE 30, 2013.

As in the past years, I am again counting on your full support and the participation of your Lodge in our Student Congresses and the Kids Talk Programs this year. We need to GO THE DISTANCE! Let's all do our part and show it is great to belong to an organization that really cares for our youth. They are our future, the future is now, and there is a future! Remember—it's up to me—it's up to you—and most definitely it's up to us to make this a successful program again this year!! Thank you and if you should have any questions, please contact me.

Fraternally,

Ernest E. Megee, III  
Youth Awareness Coordinator  
MD-DE-DC Moose Association
